Introduction to Arvutimaailm - Computer World

Arvutimaailm (AM.ee) is Estonian oldest continuously published IT magazine from 1993 to 2012. It was established by state owned organization in 1993 and sold to private publisher in 2005. Paper issue was closed at the end of 2012, but electronic version continues until now and is popular among Estonian IT enthusiasts.

We are editors and journalists of about 4-5 people who publish daily Estonian news, reviews and overviews of IT. AM.ee portal is operated by non-profit organization Reisijutud. Donations and advertising orders are welcome to support our writers and community. Donation can be done to Estonian Swedbank account - IBAN EE772200221031815441 (Swedbank), receiver - MTÜ Reisijutud.

For further questions, co-operation, press releases and news write to our editor in chief Kaido Einama, kaido@am.ee.

For advertising, content marketing and support ask am@am.ee. Advertising is managed by organizations MTÜ Reisijutud and O-Mag OÜ on www.am.ee, www.reisijutud.com and www.o-mag.eu pages.

For package delivery and physical correspondence, drop us an e-mail (am@am.ee) and arrange a physical delivery. We have a small office in Tallinn, but it is usually empty because we work from home and mobile office.
